THE GOVERNMENT HAS RE-DEFINED A SMALL BUSINESS

In this year's budget there was a significant change announced for small businesses:

A small business is now defined as any company, trust or individual that is operating a business (or businesses) with a combined annual turnover of less than \$10 million (previously \$2m). You may need to include the turnover of associated entities (eg, other family members' companies or your associates' companies) in this threshold.

THIS MEANS MANY MORE SMALL BUSINESSES CAN TAKE ADVANTAGE OF THE GOVERNMENT MONEY ON OFFER !

ACCELERATED DEPRECIATION (IMMEDIATE DEDUCTION)

Small businesses can claim an immediate deduction for assets (either new or used) acquired / installed and ready for use between 12 May 2015 and 30 June 2017, provided the asset cost less than \$20,000. At this stage, the immediate deduction will only be available until 1 July 2017.

These concessions are available for a broad range of assets; such as cars, machinery, computers, tools and equipment. The asset must, however, be used primarily for work related purposes.

REDUCTION IN COMPANY TAX RATE FROM 30% TO 28.5% FOR SMALL BUSINESSES

The company income tax rate has also reduced from 30% to 28.5% for small business entities.

RACEJET BOSS 5000

SPECIFICATIONS

The RaceJet BOSS 5000 is the top of the line in the portable water jetter range. It features a full stainless steel chassis, water tank and fuel tank. You can remove the wheels leaving just a chassis to mount to your truck, ute or van. Built by plumbers, for plumbers, it features quality inclusions like anti syphon plates built into the water tank, glass matt battery, racing style filler cap, multi-direction hose reel mounts, dual water and pressure hose reels and a full 3 year warranty. It was designed to take up the smallest amount of room on your vehicle measuring only 55cm wide.

APPLICATIONS

The RaceJet BOSS 5000 has the power to clear all general blocked drains and is capable of clearing 32mm pipe up to 150mm pipes with ease. It is one of the smallest yet most powerful water jetters on the market today. It can also be removed from the truck and wheeled on site for commercial applications. This machine is purchased by plumbers who appreciate the extra work that goes into a high quality hand made machine.
